Polymer Degradation and Stability **20** (1988) 365–366

CONTENTS OF VOLUME 20

Mechanism of Synergistic Stabilization by Hindered Amines 1
XUN-ZHUAN YANG, YANMO CHEN, L. CHARLES DICKINSON and JAMES C. W. CHIEN (USA)

Kinetics and Mechanism of Stress Relaxation of Polyisoprene Vulcanizates Under Ozone Ageing 37
S. D. RAZUMOVSKII, V. V. PODMASTERIEV and G. E. ZAIKOV (USSR)

Effect of Absorbing Pigments on the Photo-oxidation and Mechanical Property Changes in Ethylene–Propylene Copolymers 49
R. P. SINGH, J. LACOSTE, R. ARNAUD and J. LEMAIRE (France)

Crosslinking of Poly(Vinyl Chloride) with Aromatic Dithiols 59
M. WEJCHAN-JUDEK (Poland)

Recycling of Polymer Waste: Part II—Stress Degraded Polypropylene . . 63
A. VALENZA and F. P. LA MANTIA (Italy)

Model Studies of the Interaction of Cu^{2+} Ions with Ethanedioic Acid Bis [(1-pyrenylmethylene)hydrazide] 75
EDWARD BLATT, JONATHAN HODGKIN, JOHN LODER, ALBERT W.-H. MAU, WOLFGANG H. F. SASSE and KENNETH P. GHIGGINO (Australia)

Book Reviews 89

Announcement 91

Number 2

Kinetic Model of the Mechanism of High-temperature Inhibited Oxidation of Polymers 93
V. M. GOL'DBERG, L. A. VIDOVSKAYA and G. E. ZAIKOV (USSR)

Photo-initiation Rate Behavior of Weathered Coatings: ESR-Nitroxide Decay Assay 123
J. L. GERLOCK, D. F. MIELEWSKI and D. R. BAUER (USA)

Studies on the Ageing of EPDM Based Rocket Insulator Compound by Stress Relaxation and the Effect of Propellant Binder 135
A. SAHA DEURI, P. P. DE, ANIL K. BHOWMICK and S. K. DE (India)

Polymer Degradation and Stability (**20**) (1988)—© 1988 Elsevier Applied Science Publishers Ltd, England. Printed in Great Britain

Measurement of the Degree of Crystallinity of Polyethylene Wear Debris by Means of Raman Spectroscopy 149
DANIEL DOTHÉE, MAURICE BERJOT and JEAN MARX (France)

Thermal Stability and Kinetics of Decomposition of Polyphenylsilsesquioxanes and Some Related Polymers 157
ZHANG XINSHENG, SHI LIANGHE, LI SHUQUIG and LIN YIZHEN (People's Republic of China)

Book Reviews 173

Announcement 177

Numbers 3 and 4

Editorial 179

Mechanistic Action of Phenolic Antioxidants in Polymers—A Review . . 181
JAN POSPÍŠIL (Czechoslovakia)

Role of Metals and Metal-Deactivators in Polymer Degradation . . . 203
ZENJIRO OSAWA (Japan)

Influence of Metal Ions on Antioxidant Behaviour in Polypropylene . . . 237
ALFONSO J. CHIRINOS-PADRÓN, PETRA H. HERNÁNDEZ and FELIPE A. SUÁREZ (Venezuela)

The Use of Laser Raman Spectroscopy to Study the Degradation of Poly(Vinyl Chloride) 257
H. J. BOWLEY, D. L. GERRARD and I. S. BIGGIN (Great Britain)

Performance and Mechanisms of Fire Retardants in Polymers—A Review. . 271
G. CAMINO and L. COSTA (Italy)

Thermal Behaviour of Bromine–Metal Fire Retardant Systems 295
G. BERTELLI, L. COSTA, S. FENZA, E. MARCHETTI, G. CAMINO and R. LOCATELLI (Italy)

Oxidation Processes in Blue Water Pipe 315
N. S. ALLEN, G. P. MARSHALL. C. VASILIOU, L. M. MOORE, J. L. KOTECHA (Great Britain), J. LUC-GARDETTE (France) and B. VALANGE (Belgium)

Chemiluminescence and Inhibited Oxidation of Polypropylene 325
L. RYCHLA, J. RYCHLY and I. KRIVOSIK (Czechoslovakia)

Degradation and Stabilisation of Blue Water Pipe 337
L. M. MOORE, G. P. MARSHALL and N. S. ALLEN (Great Britain)

Antioxidant 'Crossover Effect' in Oven Ageing of Polypropylene . . . 355
R. D. GLASS (USA) and B. M. VALANGE (Belgium)
